

SOLV WATERSHED PROGRAM

When People Get Together,
Things Get Done

DOWN BY THE RIVERSIDE

May 14 -18, 2007

Service Learning Projects

May 19, 2007

Community Projects

During the week of May 14-19 SOLV is organizing a statewide public space beautification and enhancement event called Down By The Riverside. Students will work on service-learning projects at local public parks, watersheds, schools and other community spaces. They have the opportunity to work alongside fellow students during the school day or lead projects that involve their entire community on Saturday.

This is a great way for students to work with 15,000 other volunteers from around Oregon to make a difference in their communities.

Through SOLV's Down By The Riverside program, project coordinators receive:

- Project Coordinator Handbook and step-by-step project planning assistance
- Small reimbursement grants
- Free supplies: garbage bags, vinyl gloves, advertising posters, t-shirts and work gloves for adult volunteers and statewide recognition through media outlets if desired.

For more information on Down By The Riverside or assistance with project ideas, please contact:
